Available Equipments of Language Lab

EQUIPMENTS WITH THEIR PICTURES	DESCRIPTION Or, PURPOSE
<p>PROJECTOR SCREEN</p> 	<p>A projection screen is an installation consisting of a surface and a support structure used for displaying a projected image for the view of an audience</p>
<p>SPEAKER</p> 	<p>Headphones (or head-phones in the early days of telephony and radio) are a pair of small listening devices that are designed to be worn on or around the head over a user's ears</p>
<p>AMPLIFIER</p> 	<p>An amplifier is an electronic device that increases the voltage, current, or power of a signal. Amplifiers are used in wireless communications and broadcasting, and in audio equipment of all kinds..</p>

EQUIPMENTS WITH THEIR PICTURES	DESCRIPTION OR, PURPOSE
<p>CD</p> 	<p>Compact Disc (CD) is a digital optical disc data storage format. The format was originally developed to store and play only sound recordings but was later adapted for storage of data (CD-ROM).</p>
<p>DVD</p> 	<p>DVD is an optical disc technology with a 4.7 gigabyte storage capacity on a single-sided, one-layered disk, which is enough for a 133-minute movie.</p>
<p>LAN</p> 	<p>A local area network (LAN) is a network that connects computers and other devices in a relatively small area, typically a single building or a group of buildings.</p>

EQUIPMENTS WITH THEIR PICTURES	DESCRIPTION Or, PURPOSE
<p>MONITOR</p> 	<p>A monitor usually comprises the display device, circuitry, casing, and power supply. The display device in modern monitors is typically a thin film transistor liquid crystal display (TFT-LCD) or a flat panel LED display, while older monitors used a cathode ray tubes (CRT).</p>
<p>HEADPHONES</p> 	<p>Headphones (or head-phones in the early days of telephony and radio) are a pair of small listening devices that are designed to be worn on or around the head over a user's ears.</p>
<p>PROJECTOR</p> 	<p>A projector or image projector is an optical device that projects an image (or moving images) onto a surface, commonly a projection screen.</p>

Importance of Language Lab

Good communication skills are indispensable for the success of any professional. English language learning has therefore become a must for any Indian student today. The four skills of reading, writing, listening and speaking are generally practiced.

- 1) The language laboratory plays an important role in the language learning process. As it is a technological aid for learning, it has a number of advanced facilities that can help a student to learn a language with proficiency to communicate.
- 2) It helps one to acquire such proficiency in a language is the process and the method of learning that language.
- 3) Innovative products such as digital multimedia control, wireless headsets and microphones, the interactive response pad, etc. are very useful for students learning languages for communication.
- 4) The language laboratory is very useful for assessing students' speech.
- 5) The language laboratory offers broadcasting, television programmes, web-assisted materials and videotaped off-air recordings in the target language.

Four kinds of laboratories are being focused on Language Lab:

Conventional Laboratory

The conventional lab has a tape recorder and a few audiocassettes of the target language to teach the learners.

Lingua Phone Laboratory

This is again a conventional type of lab, with a little modernization. Learners are given a headset to listen to the audiocassettes being played. Here distractions are minimized and a certain amount of clarity in listening is possible.

Computer Assisted Language Laboratory (CALL)

CALL uses the computer to teach language. Nowadays, there are also laboratories with computers with a connection to the Internet. These are called **Web Assisted Language Laboratories (WALL)**.

Multimedia Hi-Tech Language Laboratory

There is a lot of software available on the market that can be used in the multimedia language laboratory,

Future Plan

- Upliftment of the conditions of the lab with the reference to the modern trends and research of teacher education.
- To introduce modern techniques for the new innovations of the subjects so that the interest and attitude of the students be positive towards the subjects.
- To meet up the inquisitiveness and interest of the students, instruments to be provided in the subject lab.
- For activities related to lab necessary support system to be needed for student teachers.
- To ensure global competencies in students.
- Opportunities for spontaneous as well as directed communication in the target language.
